Speaking Topics

▶ *Traumatic Brain Injury*

(TBI) is an "Invisible Disability" Brain injury community that is often underserved and overlooked. To prevent "lack" I speak from a place to increase awareness, education and advocacy.

▶ *Hope in Healing*

Psalm 147:3

He heals the brokenhearted and binds up their wounds.

▶ *Inspiration.*

Letitia loves to share her story and allow God to speak through her as she inspires others that even if their hope is lacking it's not lost. Inspiring others to Rise from the ASHES of Their TRAUMA. Rise up, inspire and GO it's not over.

▶ *Grief*

Grief is hard to bear, but it's not the end. Don't let grief consume you to where you are Breathing while Suffocating. You can conquer grief and I am a living witness, yes it still hurts but I can now breathe without Suffocating.
